

SENIOR .NET DEVELOPER

TechnoLogica delivers IT solutions, products and services focused on enterprise digital transformation and e-government. Our team consists of skilled and experienced individuals dedicated to developing solutions and products that ensure success for our customers. We grow by working with diversity of technologies and by delivering solutions in different business areas.

We are looking for an **Senior .NET Developer** to join our team in Sofia and Burgas.

MAIN RESPONSIBILITIES:

- Contribute in all phases of software development life cycle;
- Analyze system requirements and delegate development tasks;
- Ensure designs are in compliance with specifications;
- Write well designed, efficient and testable code;
- Implement best practices, standards and procedures;
- Support continuous improvement by investigating alternatives and technologies and presenting these for architectural review.

REQUIREMENTS:

- Experience in design and development of software products using some of the following technologies: C#, ASP.NET MVC, .NET Core, HTML 5, CSS 3, JavaScript, Web API, Bootstrap/Material, WPF, WCF, Entity Framework;
- Experience of SOAP and REST web services;
- Experience in Angular, React JS or other SPA technologies;
- Experience in at least one of the following databases: ORACLE, MS SQL Server, PostgreSQL;
- Experience and strong understanding of object-oriented software development and Design Patterns;
- Good analytical and communication skills;
- Very good teamwork skills;
- Willingness for personal and professional development.

AS AN ADVANTAGE, WE CONSIDER:

- Experience in some of the following technologies: Xamarin, Swift, Kotlin, Windows Forms, NoSQL databases, Node.js, GoLang;
- Understanding of Agile/Scrum methodology;
- Competences in business analysis or UML;
- Experience with version control systems;
- Professional certificates;
- Very good command of the English language.

BENEFITS:

- Sustainable company with long-term commitments;
- Friendly, vibrant and intellectually challenging workplace;
- Opportunities for professional training, growth and certification;
- Opportunities to build software products and critical information systems from scratch using modern technologies;
- Diversity of projects and possible mobility between projects over time;
- Competitive remuneration package base on individual performance;
- Referral program – we value talent and we facilitate friendly working atmosphere, bring your friends!
- Social benefits, corporate parties and special interest groups.

To apply, please submit your CV to jobs@technologica.com

Only shortlisted candidates will be contacted.
