Oracle Database 19c: RAC Administration Workshop

This Oracle Database 19c: RAC Administration Workshop course will teach you about Oracle RAC database architecture. Expert Oracle University instructors will deep dive into Global Resources and Cache Fusion.

Learn To:

- Install and configure RAC

- Manage RAC Database

- Upgrade and patch RAC Database

- Manage backup and recovery for RAC

- Monitor and tune RAC Database

- Manage high availability of services

- Implement High Availability for connections and applications

- Configure RAC One Node Database

- Implement In-Memory Column Store in RAC

- Configure Multitenant Architecture in RAC

- Manage Quality of Service in RAC

Objectives:

Upon completion of this course, the student should be able to:

- Grid Infrastructure: Overview

- RAC Databases Overview and Architecture

- Installing and Configuring Oracle RAC

- Oracle RAC Administration

- Upgrading and Patching Oracle RAC

- Managing Backup and Recovery for RAC

- Global Resource Management Concepts

- RAC Database Monitoring and Tuning

- RAC Database Monitoring and Tuning

- High Availability for Connections and Applications

- Oracle RAC One Node

- Oracle Database In-Memory in RAC

- Multitenant Architecture and RAC

- Quality of Service Management
