

Oracle Database 12c R2: Advanced PL/SQL

This Oracle Database 12c: Advanced PL/SQL training teaches you how to use the advanced features of PL/SQL. Learn how to efficiently design and tune PL/SQL to interface with the database and integrate with the other applications. In this course, you will be introduced to Oracle Database Exadata Express Cloud Service.

Objectives:

- Design PL/SQL packages and program units that execute efficiently
- Write code to interface with external applications and the operating system
- Create PL/SQL applications that use collections
- Write and tune PL/SQL code effectively to maximize performance
- Implement a virtual private database with fine-grained access control
- Write code to interface with large objects and use SecureFile LOBs
- Gain an understanding of the Oracle Database Exadata Express Cloud Service
